Seeing 3D with those weird colored glasses

E-Day, February 25, 2023

Prof. Henry (Hank) Dietz et al
Electrical & Computer Engineering

Aggregate.Org
UNBRIDLED COMPUTING

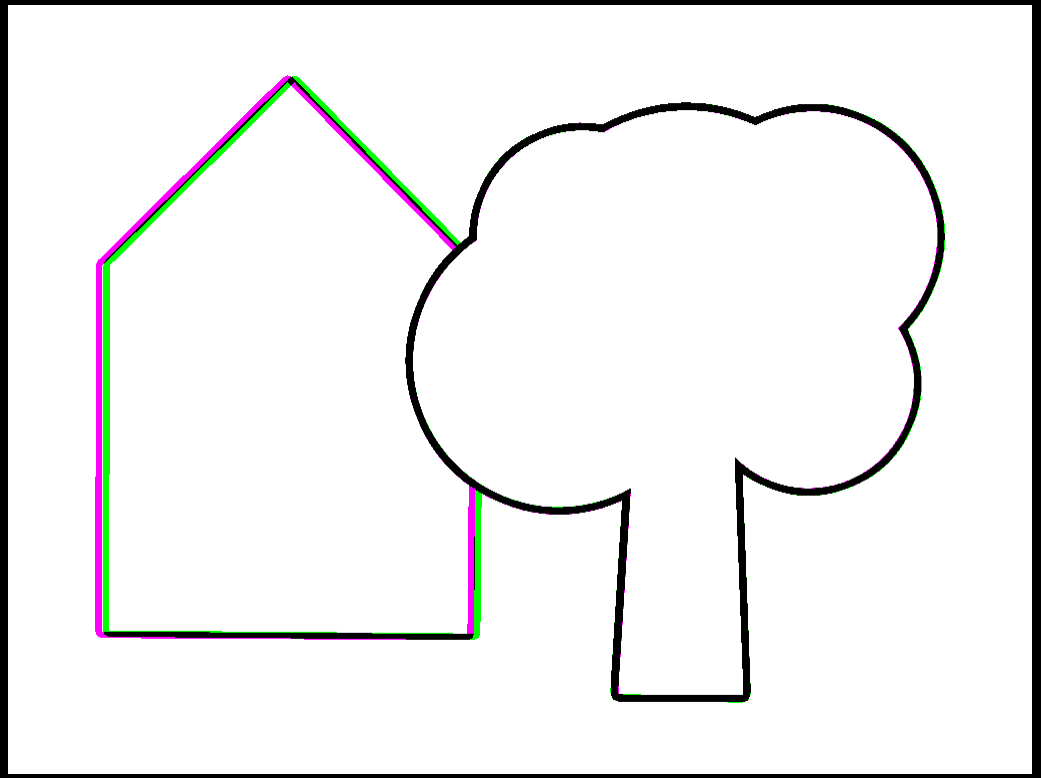
University of Kentucky

2 eyes – 2 views – encode depth

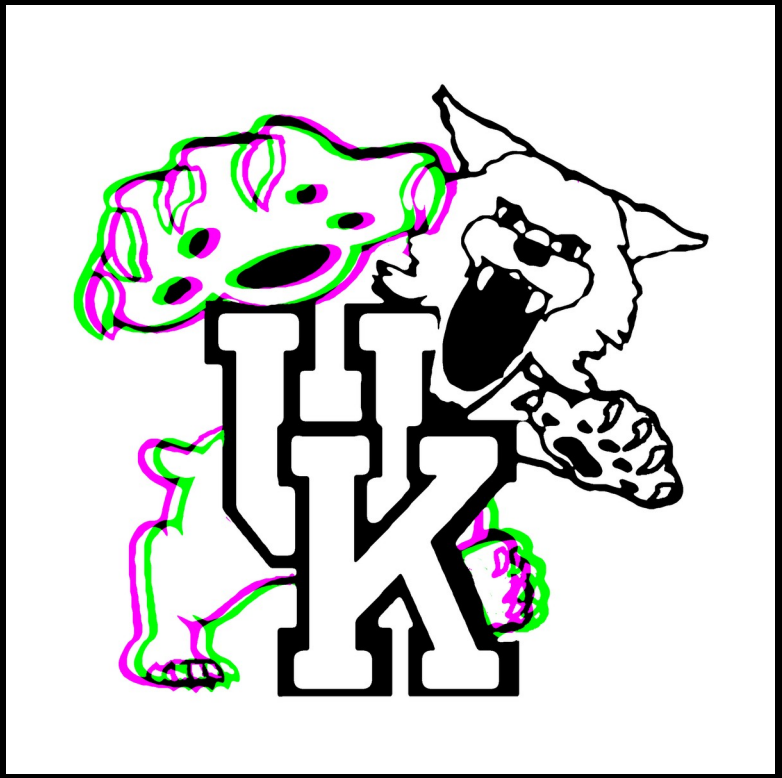
We can do this with 2 cameras

Anaglyphs: 3D in one image

- Color-code 2 views:
  - Right color
  - Left color
- You can draw it!



Anaglyphs: 3D in one image



Single camera+lens Anaglyphs!
